

# r4apps pricing example

## Pricing Model

- ✓ r4apps solutions offers a **Proof-of-Concept phase** (4 weeks) which is used to get to know and test the functionalities of the platform after its implementation
- ✓ **No license fees** have to be paid for the PoC; the implementation of the platform is also free in case of using standard operating systems (RHEL, Debian, various VM)
- ✓ After PoC phase you can switch to license the platform regularly
- ✓ **Basic training** at our place for free, otherwise our travel costs will be charged
- ✓ **Pricing example:** for the usage of the r4apps solutions platform (2 connections and 2 admin users) the license fee is calculated as shown in the table below plus VAT
